PROJECTS

Chess puzzle solver C++, Qt Framework   **https://github.com/dzhuhan/bachelor_thesis**
An application for solving chess problems, that I wrote as a part of my bachelor thesis.

Embedded clock C   **https://github.com/dzhuhan/embedded_systems**
A final project for my embedded systems classes. It's a clock for educative microprocessor system DSM-51.

Airport database PLSQL   **https://github.com/dzhuhan/BazyDanych**
A sample airport database that I made as a final project for my databases classes.

Imageboard HTML, CSS, JS   **https://github.com/dzhuhan/imageboard**
A simple imageboard. Just a project for fun / learning.

ABOUT ME

Hi! My name is Andrii. I recently graduated with a Bachelor's degree in Computer Science and am looking for my first job as a software engineer. My command of English and strong programming skills allow me to quickly learn new things and my sense of responsibility wouldn't let me do my job carelessly. Some of my hobbies are playing video games, D&D, drawing, sport. I would be happy to join your team.
